RADIOSMART SOLUTIONS

YOUR RADIOSMART CONNECTION

PUSH-TO-TALK OVER CELLULAR

Business communication. Leisure connections.

RTS DV-3954

Only R1725

Stay connected. Across town. Across provinces.

Available from RadioSmart: simple push-to-talk communication for business and leisure, using the reach of cellular networks.

WIDER COVERAGE

Connect people across different sites, towns and provinces wherever suitable cellular data coverage is available. Users do not need to be within direct radio range of each other.

PRESS. TALK. CONNECT.

Speak to your connected group at the press of a button. Share updates and coordinate activities without dialling each person individually.

NO RADIO LICENCE REQUIRED

ICASA type approved | No monthly platform subscription fees

Built for busy teams

A practical way to coordinate security staff, deliveries, warehouses, events, hospitality and maintenance teams - including businesses working across multiple locations.

Enjoy it after work, too

Keep family, friends and motoring groups in touch on road trips, camping holidays and leisure activities in areas with suitable cellular coverage.

Simple to get started

01 Supply your own data SIM

Choose a compatible SIM and a mobile provider with suitable coverage in the areas where you plan to use the radio.

02 Load your own data

You control your data package and top-ups. SIM and mobile data charges are paid to your chosen provider.

03 Arrange activation by email

Activation is simple and quick to arrange. Activations are processed during office hours on weekdays; plan ahead for weekend use.

No monthly radio platform or subscription fees

An active mobile data connection is required for operation.

What's in the box?

- RTS DV-3954 PoC radio
- 3000mAh rechargeable battery
- Desktop charging cradle
- Mains power adapter
- USB charging cable
- Belt clip
- Wrist strap
- User manual

SIM card and mobile data are not included. Coverage and performance depend on the selected mobile network and available service. Every participating radio requires activation and a working cellular data connection.
